

2 June 2022

To whom it may concern

GENETIC MODIFIED MATERIAL

Vititec (Pty) Ltd is a registered Nursery and all vines and grafting material are produced under the supervision of the Plant Improvement Board, who was appointed by the Department of Agriculture to oversee Plant Improvement Organisations.

The Directorate of Plant Protection yearly conducts audits of the nurseries.

I also confirm that all our material is non GMO and to our knowledge there are no organic grafted vines available in South Africa.

Kind regards

D A VAN WYK
CEO
