

31 August 2026

To whom it may concern

GENETIC MODIFIED MATERIAL

Vititec (Pty) Ltd is a registered Nursery, and all vines and grafting material are produced under the supervision of the Plant Improvement Board, who was appointed by the Department of Agriculture to oversee Plant Improvement Organisations.

I also confirm that all our material is non GMO and to our knowledge there are no organic grafted vines available in South Africa. Our vines were lifted from the nursery 23 June 2026 – 11 July 2026 and are not treated with any products after lifting.

The Directorate of Plant Protection yearly conducts audits of the nurseries.

Kind regards

JC SCHUTTE
CHIEF EXECUTIVE OFFICER
